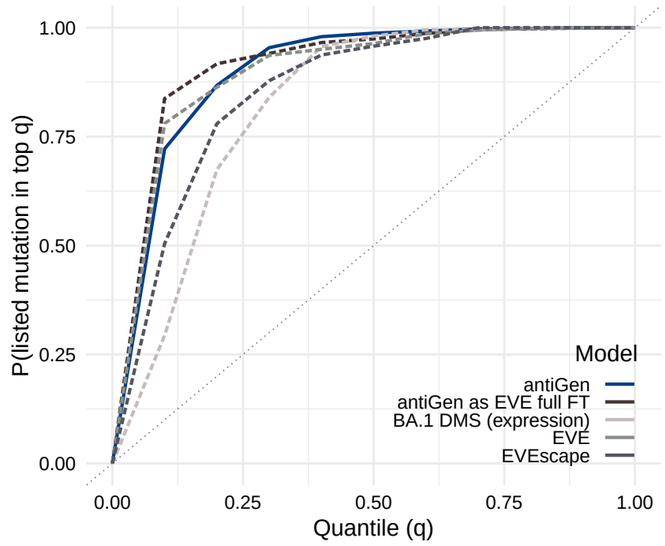
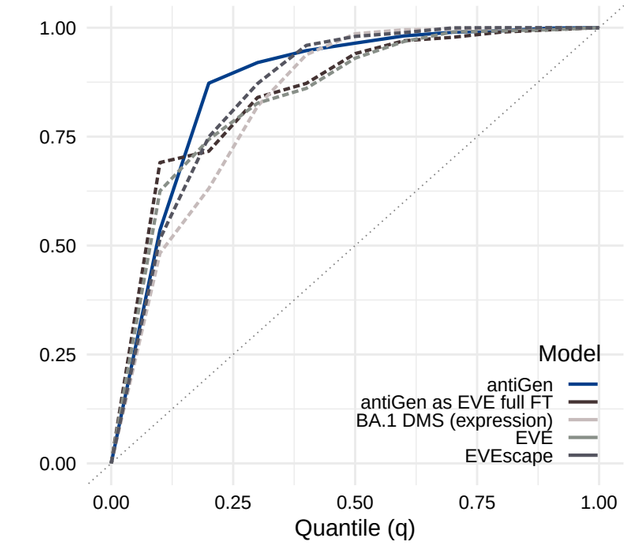
Model type: antiGen | antiGen Finetunes | Deep Mutational Scans | Pandemic Data in Training Window | Pre−Pandemic Data Only

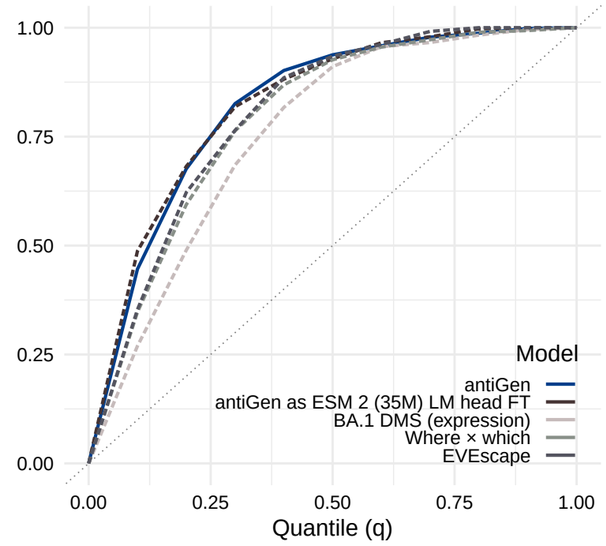
A Recall, all list cells, event−weighted



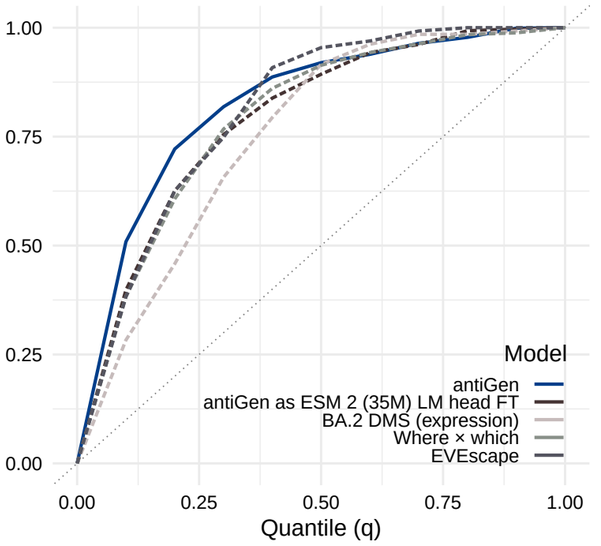
B Recall, de novo, event−weighted



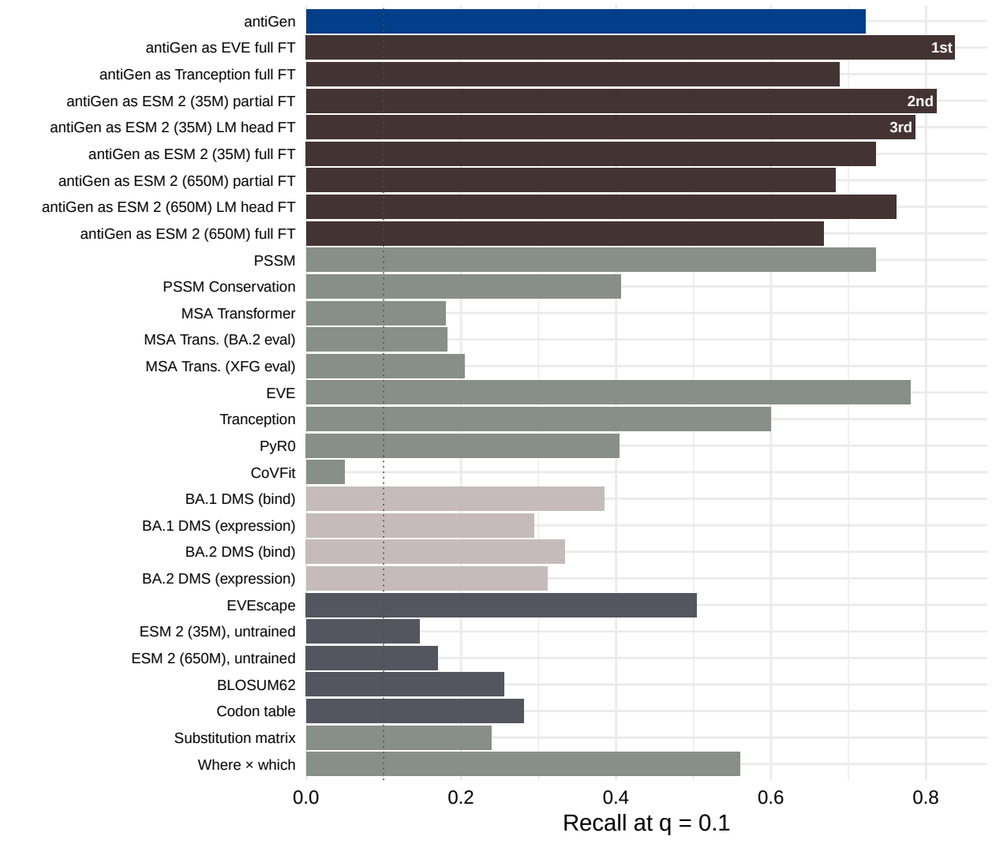
C Recall, all list cells, cell−weighted



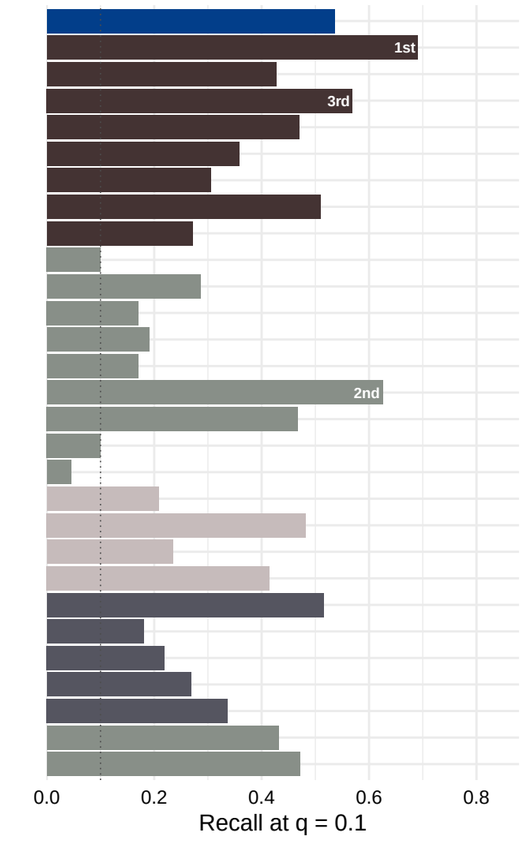
D Recall, de novo, cell−weighted



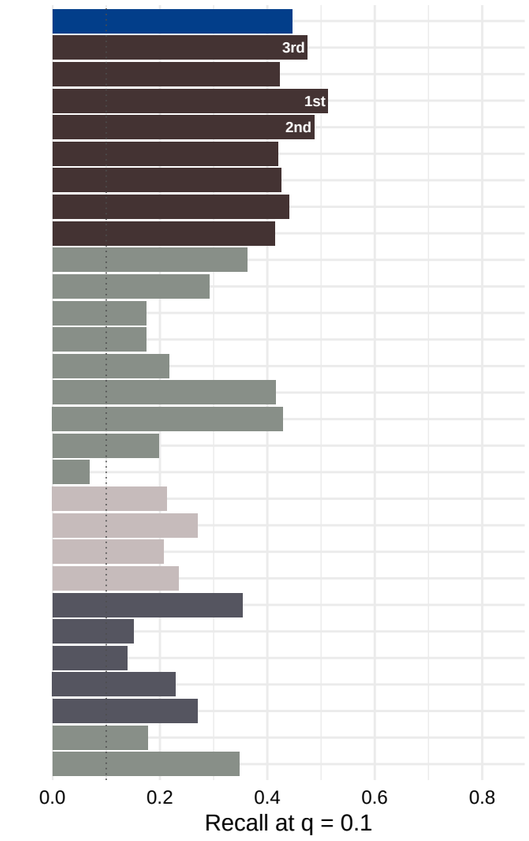
E Top decile, all list cells, event−weighted



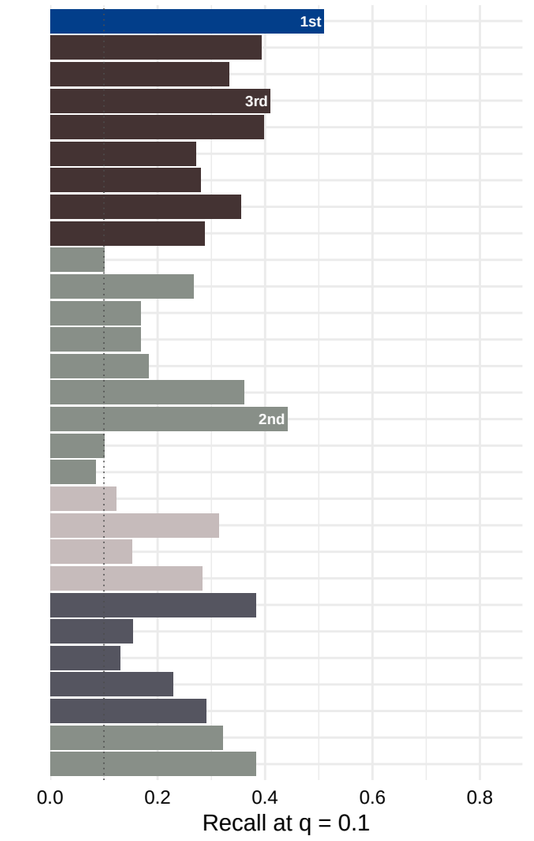
F Top decile, de novo, event−weighted



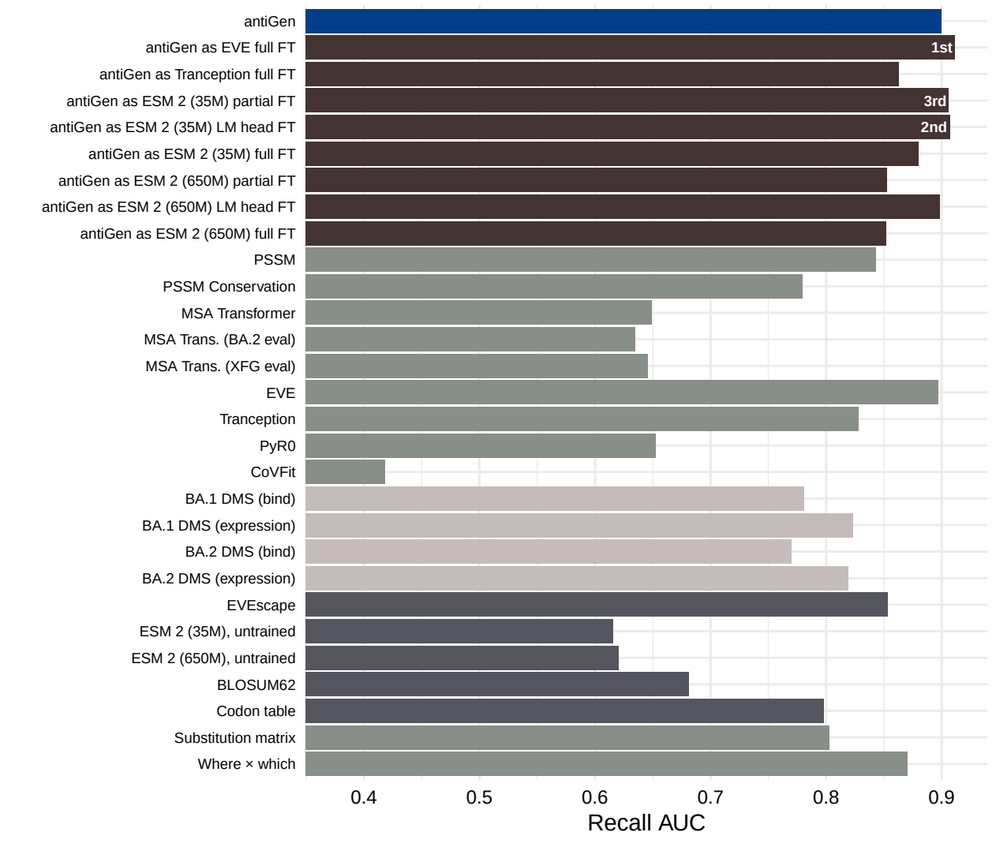
G Top decile, all list cells, cell−weighted



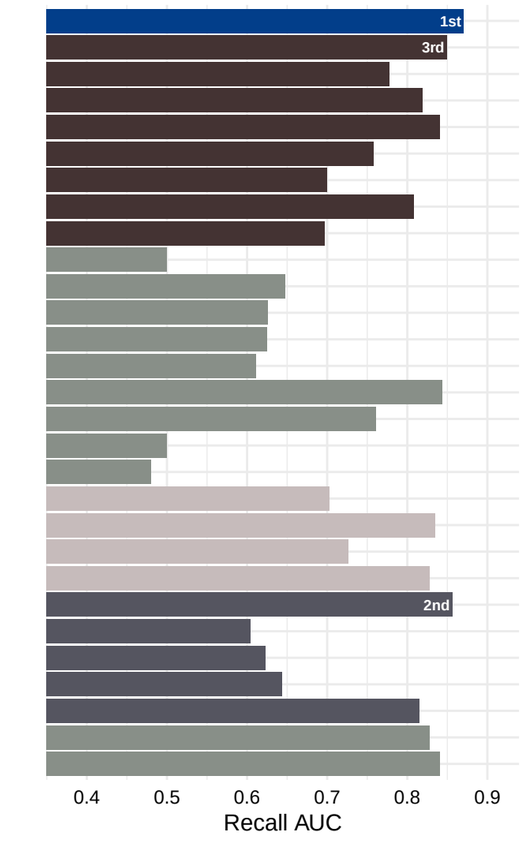
H Top decile, de novo, cell−weighted



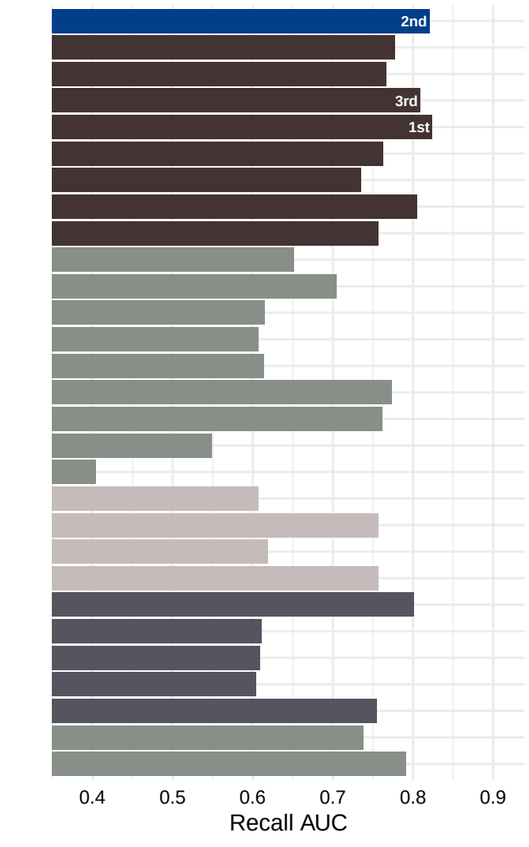
I AUC, all list cells, event−weighted

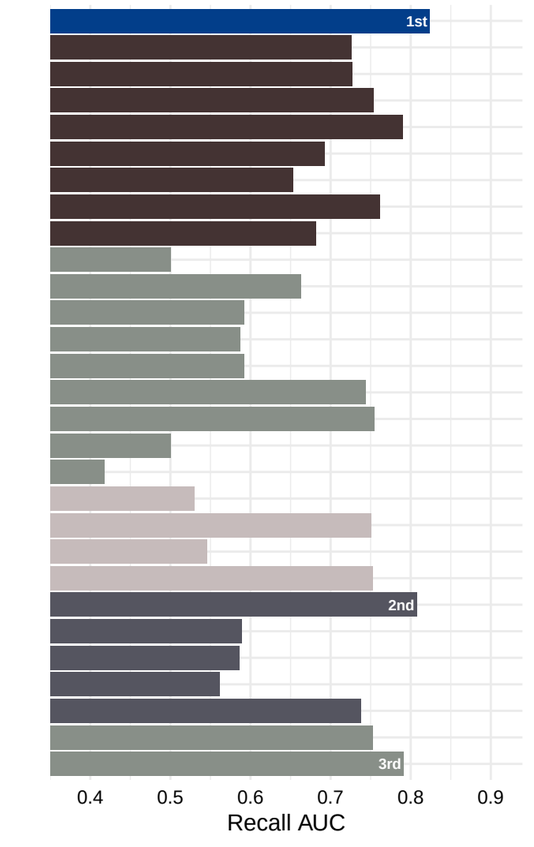


J AUC, de novo, event−weighted



K AUC, all list cells, cell−weighted





L AUC, de novo, cell−weighted
