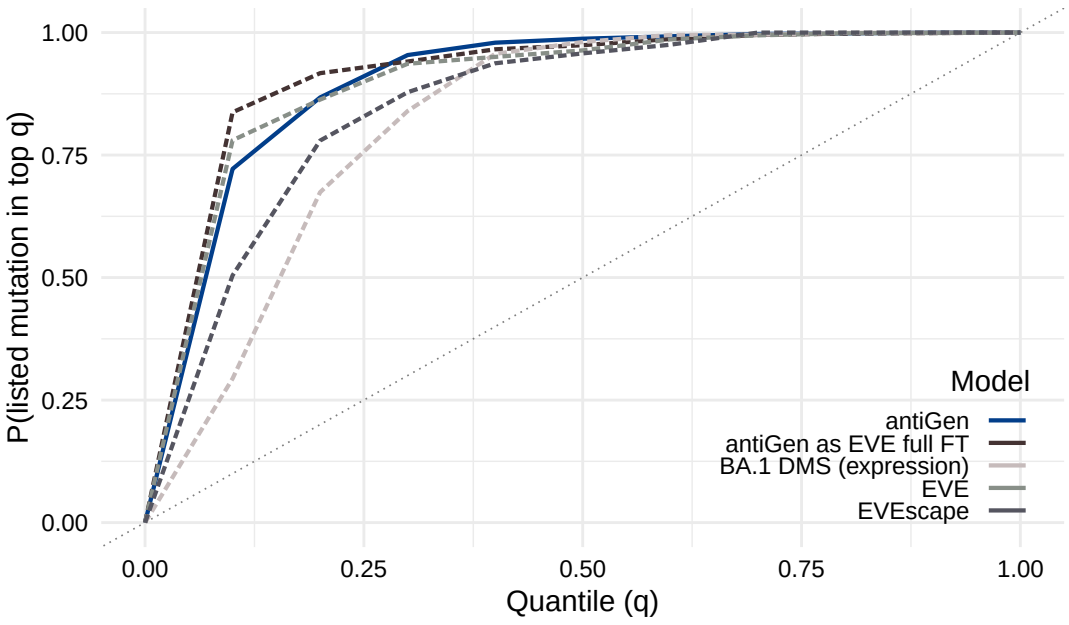
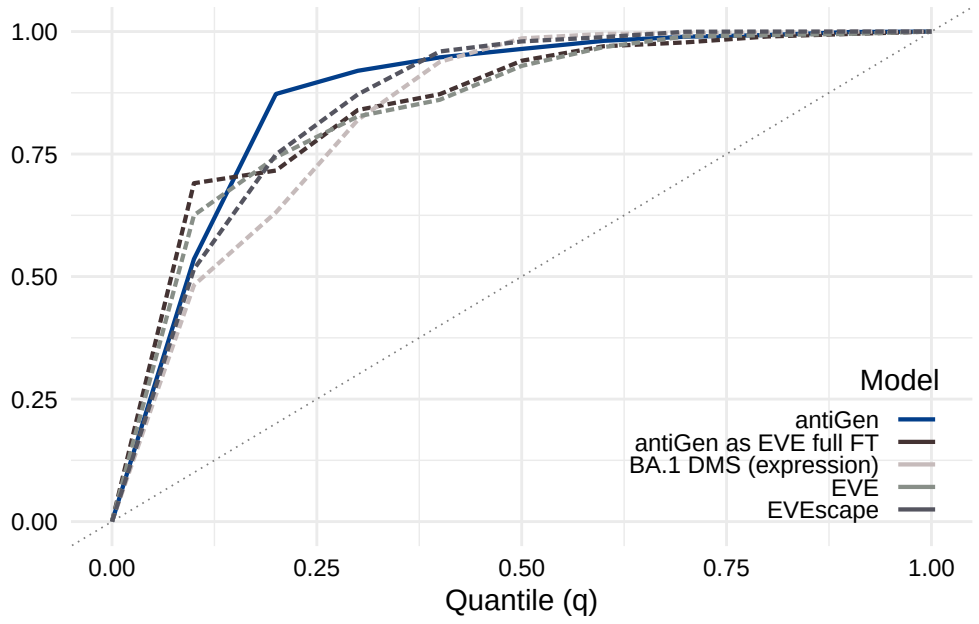
Model type: antiGen | antiGen Finetunes | Deep Mutational Scans | Pandemic Data in Training Window | Pre−Pandemic Data Only

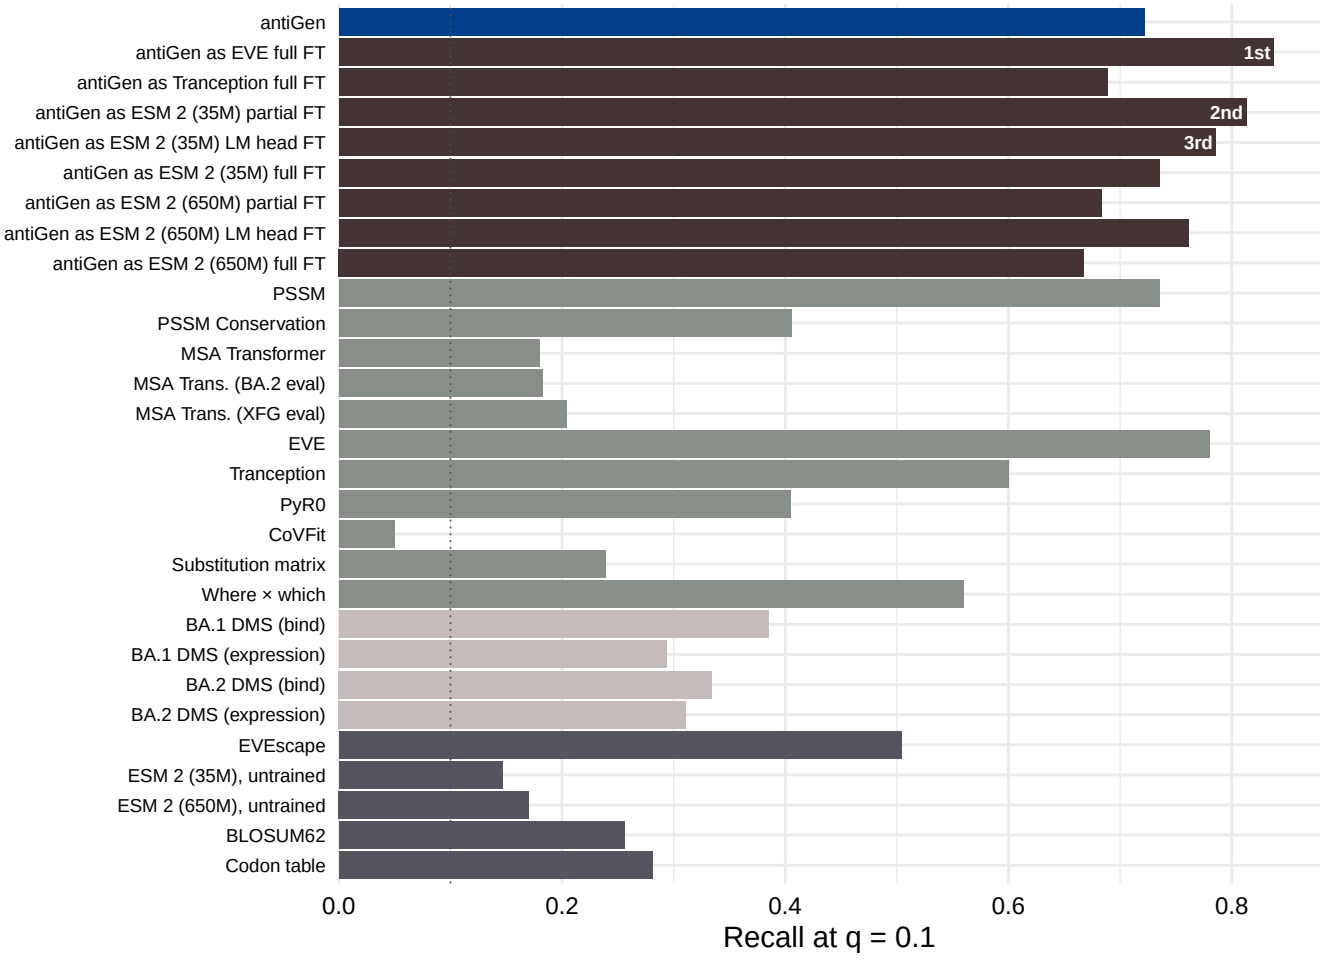
A Recall, all list cells, event−weighted



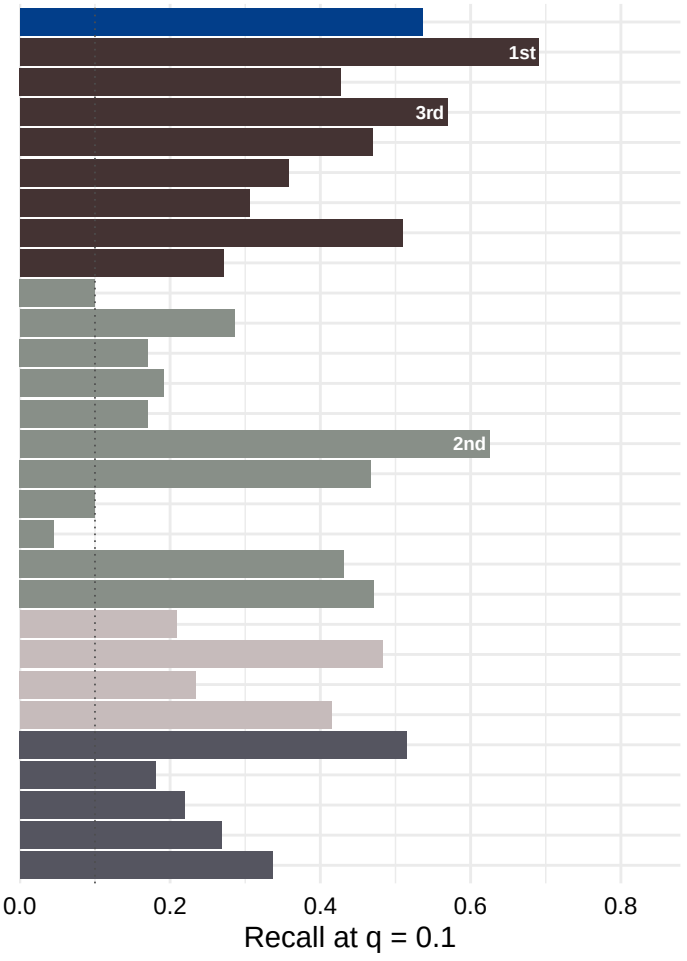
B Recall, de novo, event−weighted



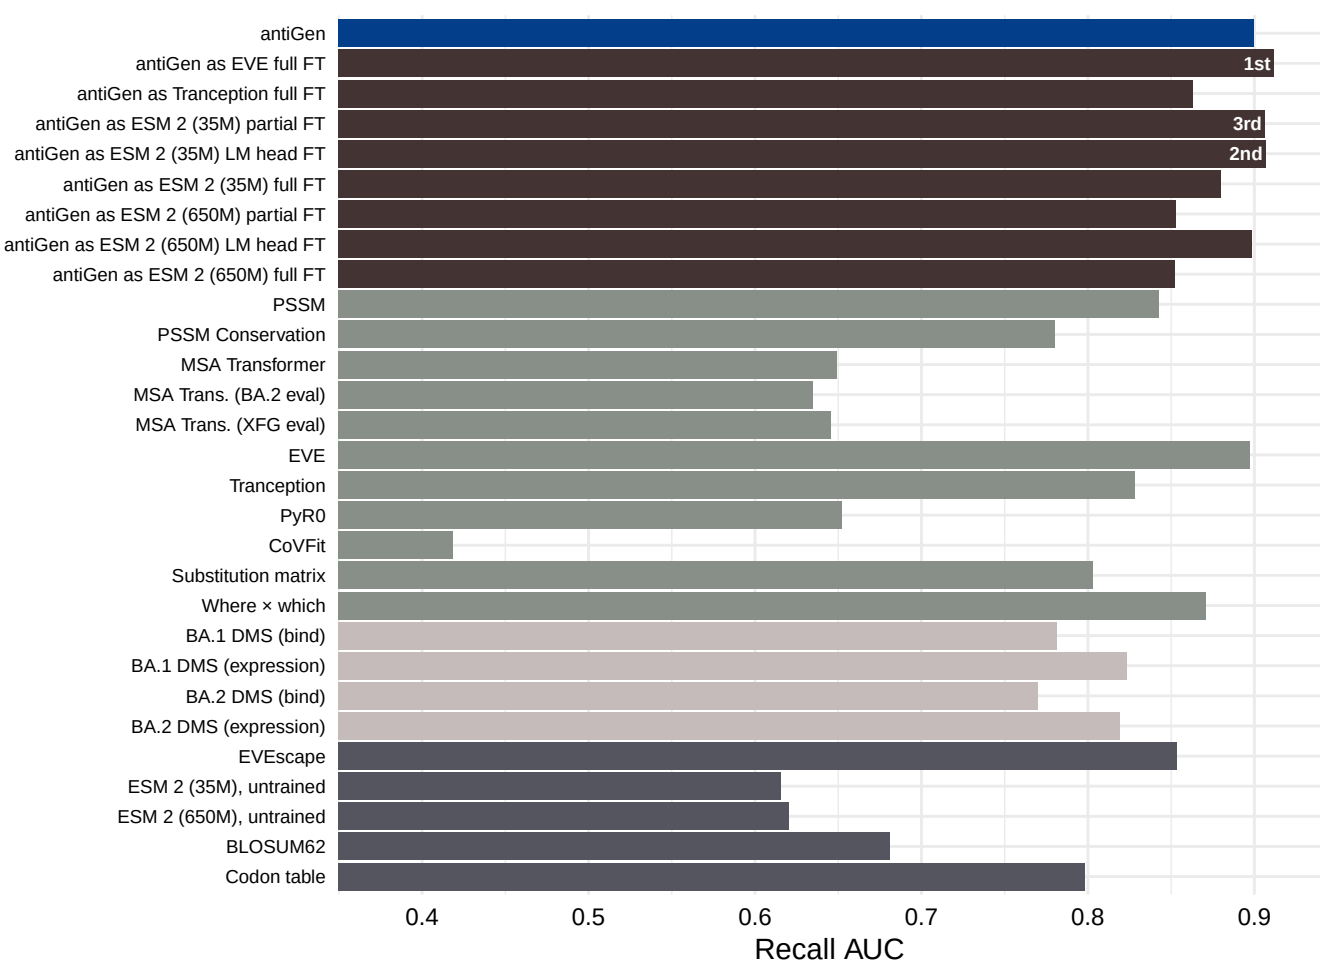
C Top decile, all list cells, event−weighted



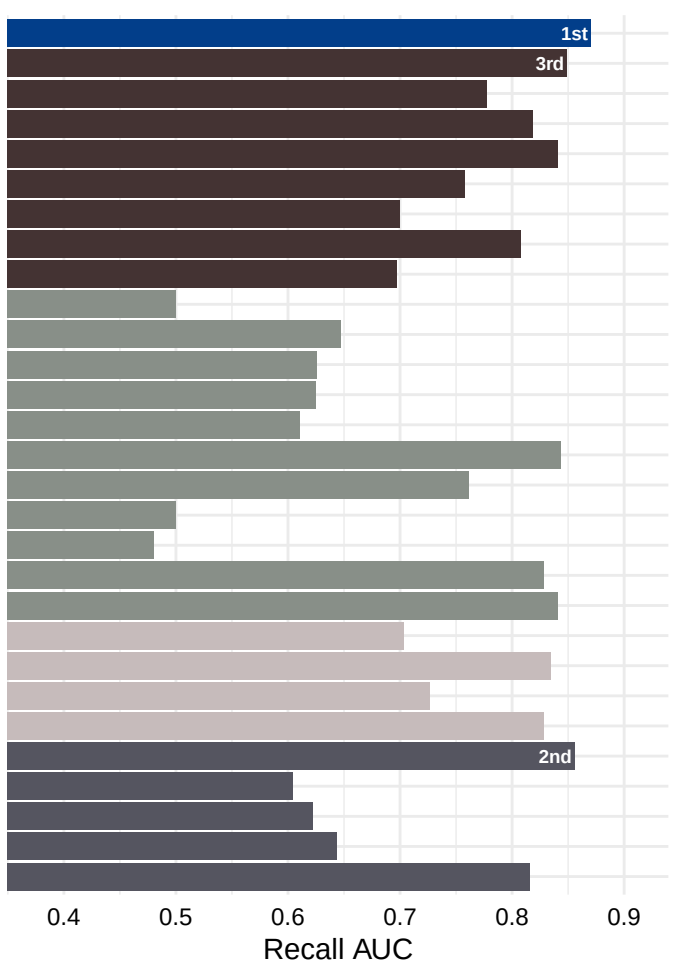
D Top decile, de novo, event−weighted



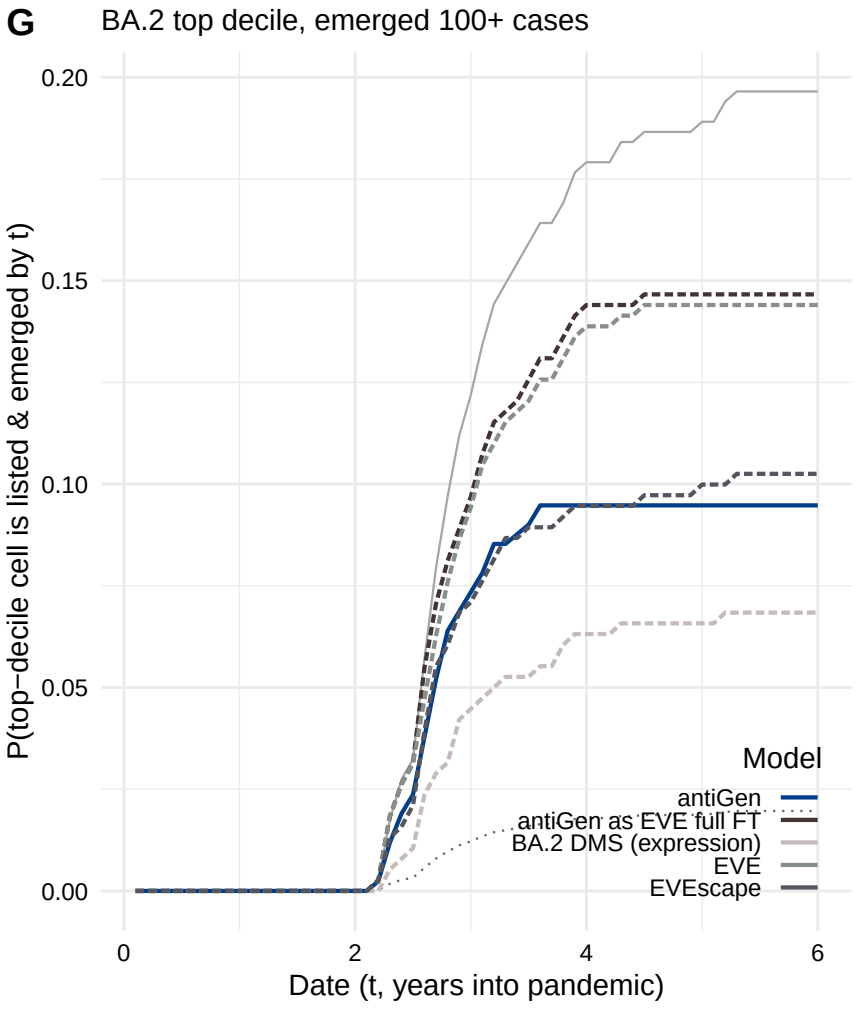
E AUC, all list cells, event−weighted

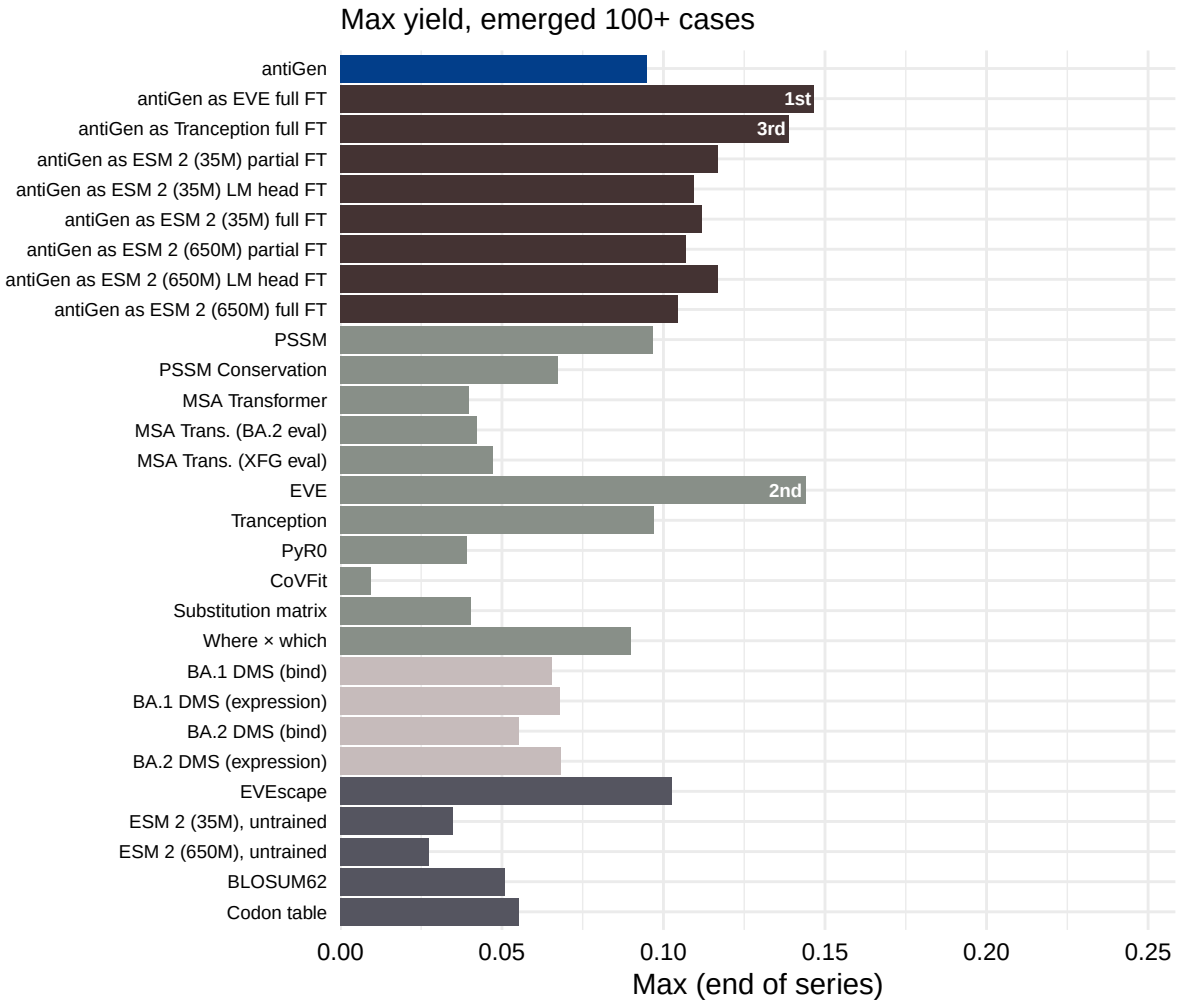


F AUC, de novo, event−weighted



G BA.2 top decile, emerged 100+ cases





H Max yield, emerged 100+ cases
